The Simpolo Philosophy

Since the first steps were taken in the year 1991, SIMPOLO Tiles and Bathware has carved its niche as a consistently growing organisation with unparalleled innovation and passion rooted in simplicity. We endure gratification for every experience that we offer, created to share something truly meaningful. It may not resonate with the majority, but that is what takes us a class apart .

Core Values

Innovation is a state of mind.

Global outlook breaks all boundaries.

Quality begets excellence.

Integrity makes us who we are.

Teamwork can build an empire.

Systematic thinking.

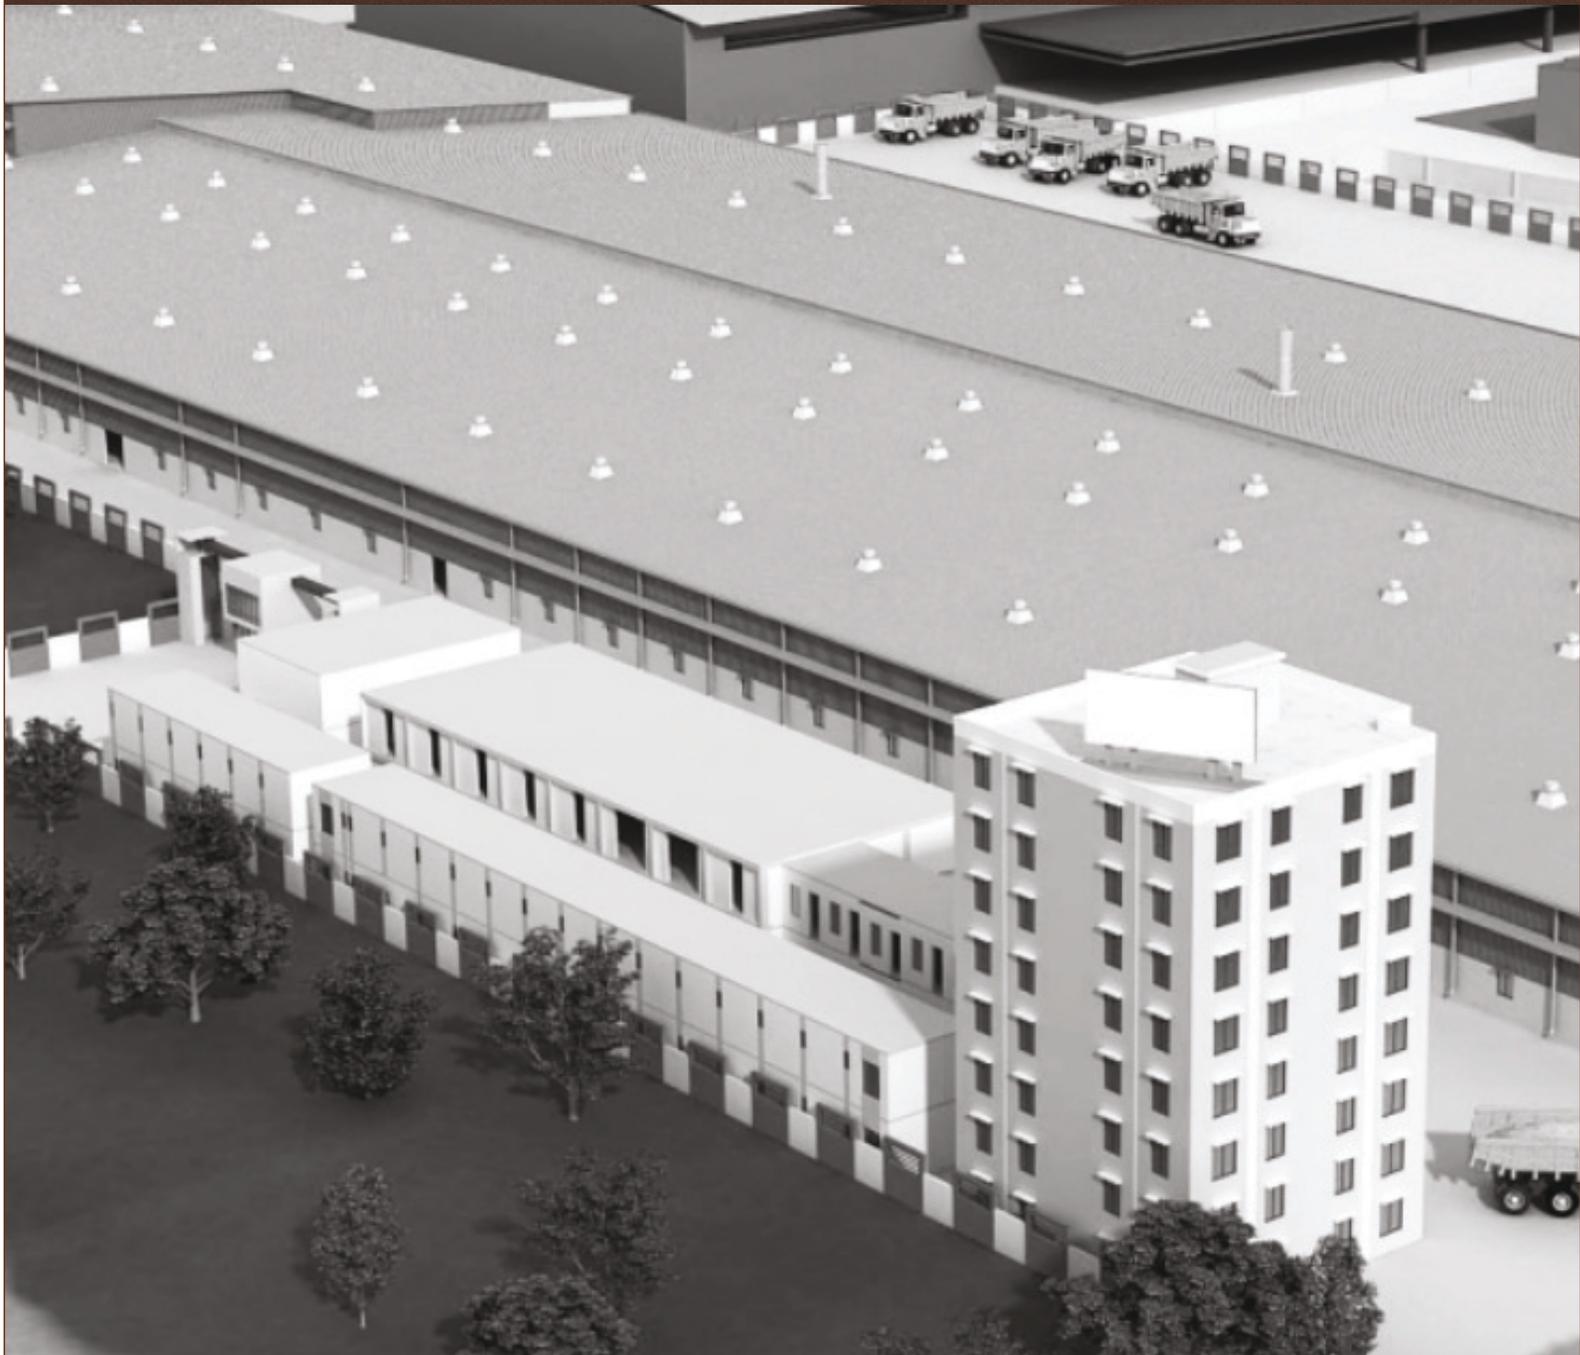

Service mindset.

The Bathware Showcase

In the bathrooms of the future, comfort will be a crucial element. Those who appreciate top-tier design will prioritize various aspects of their bathroom experience. Simpolo has crafted ideal solutions to fulfill these evolving needs, we are glad to present the pinnacle of contemporary bathroom innovation.

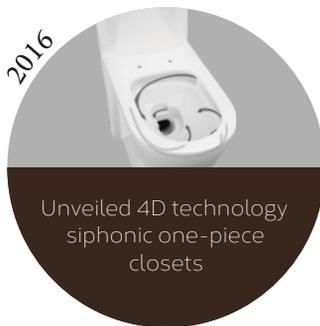

Exhibition Center

Quietly Leading. Consistently Defining.

Since 1991, Simpolo's journey in sanitaryware has been one of quiet strength and steady innovation. For over two decades, Simpolo Bathware has shaped the future of sanitaryware in India.

Every piece of our bathware tells a story of passion, heritage, and the pursuit of beauty in everyday living. This journey reflects who we are and who we aspire to be: a trusted name in complete bathroom solutions.

The First to Redefine Modern Bathware

And the journey forward is just as promising.

What is 360° Silent Flushing?

Engineered for quiet power, designed for complete cleanliness. Simpolo's 360° Silent Flushing system delivers a seamless swirl of water across the bowl, ensuring thorough cleansing with minimal noise. Precision-crafted to elevate everyday functionality, it offers a fine flush that's as efficient as it is discreet.

What is **Siphonic flushing?**

Siphonic flushing releases water in a circular motion that creates a vacuum effect.

As the water rises gravity helps pull the waste from the toilet bowl optimising every flush.

Saves
Water

Effective
Waste
Removal

Odour
Control

What is **Washdown flushing?**

Washdown flushing is a type of toilet flushing system that uses water weight and gravitational force to eliminate waste from the toilet bowl. In a washdown toilet, water from the tank pours directly into the bowl. The force of the water pushes waste material down the outlet. Washdown toilets typically have a small water surface area in the bowl.

SIPHONIC

It creates a vacuum to pull waste from the toilet bowl into the trapway. The trapway fills with water during the flush, which initiates a siphonic action that "pulls" material out of the bowl while the water entering the bowl from the tank through the jet and the rim "pushes" material out.

RIMLESS

Simpolo's Rimless WC features a channel free design that eliminates germ reproduction and provides superior hygiene.

Crafted with Care, Handled with Pride

Empowering Communities: Beyond creating exquisite basins, Simpolo is committed to empowering women in rural communities. By providing these artisans with a platform to showcase their talents, we aim to foster economic independence and social empowerment. Through fair wages and sustainable practices, we ensure that every purchase contributes to the betterment of these communities.

Simpolo Vitrified Private Limited

Survey No.606, Old Ghuntu Road, Tal: Morbi,
Ghuntu-363 642, Gujarat India.

Email: complaint.sanitary@simpolo.net

Toll-free number 1800 233 2223 / Phone +91 72289 22222

Installation guidelines:

1. Kindly inspect the products (all parts) at the time of receiving the delivery. Carefully inspect the product for damage before installation.
2. Simpolo is not responsible for any damage that occurred in transit.
3. The installation should be done by a trained technician.
4. Simpolo is not responsible for damage/malfunctioning due to improper installation.
5. Over tightening may cause breakage or chipping of Ceramic/Plastic/Sensor kit.
6. Please do not use cement on any portion of the ceramic product.
7. It is advised to through the water in line before connecting the product.
8. Improper/wrong installation of the products automatically terminates and nullifies the warranty. Also, it does not cover normal wear and tears.
9. If any external accessory, not provided by Simpolo, is used with the product, and causes damage, then the warranty for the product will be void. This means that the warranty will not cover the repair or replacement of the product in such a scenario.

Maintenance guidelines:

● Vitrified Ceramic body:

1. While cleaning the ceramic products after installation, please do not use any abrasive cleansers, as they may damage the ceramic surface. Use warm water and liquid detergent to clean the ceramic surface. Always test product cleaning solution on an inconspicuous area of the product before applying it to the entire surface.
2. Do not use metal tools or wire brushes to remove any installation glue material. Use powder type detergent on a damp cloth to provide mild abrasive action to remove any residual. Clean the outside surface of the ceramic product with mild soap and warm water. Wipe the entire surface completely dry with a clean, soft cloth.
3. Do not allow cleansers containing petroleum distillates to remain in contact with ceramic surfaces for long periods of time.
4. Simpolo is not liable or shall not be responsible for any such damage/scratch or for improper installation.

● Plastic Parts:

5. While cleaning the cistern/Seat cover after installation, do not use abrasive cleansers, as they may damage the Plastic Products.
6. Do not allow cleansers containing petroleum distillates, abrasive cleaners or solvents and products containing chlorine to remain in contact with ceramic surface and damage fittings for long periods of time which may lead to leakage and product damage.
7. Clean the outside surface of the Polypropylene (PP) and Urea-Formaldehyde (UF) seats with mild soap and warm water. Wipe the entire surface completely dry with a clean, soft cloth.

● Sensor Kits:

8. While cleaning the sensor after installation, do not use abrasive cleansers, as they may damage the sensor's surface. Do not use water to clean the sensor.
9. Do not use caustic detergent. Do not ever strike at sensor kit directly.
10. Check the battery and power regularly. When the indicator flashes every four seconds, it is out of power. Please change the batteries.
11. Clean the filter net from time to time (every six or twelve months or whenever the water flow is reduced).

Introduction:

We thank you for choosing the Simpolo product & your continued trust in us. Simpolo promises the highest level of quality product and services to give you a delightful experience.

Our Warranty Does Not Cover Certain Consumables Like Battery Or Fragile Items

Warranty terms and condition:

The products used in normal residential and non-residential commercial settings are warranted to be free of defects in the material and workmanship for the period set forth in the warranty coverage chart as detailed below, commencing from date of sale of Simpolo Ceramics products to the purchaser.

Warranty Terms:

1. This warranty is only effective if proof of purchase is provided with all warranty claims or requests. The warranty period will start from date of invoice for retail / date of possession for projects and shall automatically terminate upon the expiry of the warranty period even if the Product has not been installed or has not been in the use for any part or whole of the warranty period for any reason whatsoever.
2. The company is not liable for any damage due to faulty installation.
3. The warranty becomes null and void if installation is not done by a qualified and experienced technician and/or as per the installation procedure laid down by the company.
4. The company is also not liable to pay for any civil or construction work required during installation of new products or replacement/repair of old products.
5. An equivalent replacement on a pro-rata basis shall be provided in case the product has been discontinued, whereas the customer must pay a proportionate amount on the current MRP, given the product is within the warranty terms.
6. During the warranty period and under normal use, if the product / component / part is found to be of faulty due to manufacturing defect, the same will be repaired or replace, without charges either for part or labor or both, the decision of company official will be final.
7. Company shall not be liable to Customer claiming the warranty under the terms of condition of this Limited Warranty Certificate, due to defects caused by rodents/pets or in the events of force majeure. The Force Majeure means any disaster, act of God or the public enemy, any accident, explosion, fire, storm, earthquake, electric storms, tornado, flood, casualty, lockout, strike, labor conditions, unavoidable accident, nuclear explosion, national calamity, or any other circumstance or event or by any enactment of law, or by order of any legally constituted authority, or by any other similar cause of the Company or beyond the reasonable control of the party relying upon such circumstance or event.
8. This warranty shall not cover any consequential or resulting liability, damage or loss to property or life arising directly or indirectly out of any defect in the product. The company's obligation under this warranty shall be limited to repairing or providing replacement of defective parts/product only during the warranty period.
9. Company and customer agree that Simpolo bears no responsibility for incidental and / or consequential damage arising out of use and for inability to use a product. Company liability will be limited and restricted to the product replacement/value of the product sold. Company under all circumstances shall not be liable to uninstall the defective product or installed replacement product. In case replacement is the only option then the customer must hand over the defective product to the seller from whom it was purchased and take the replacement product from there.
10. Product design improvement is a continuous process, and it is possible to change in part/design/ aesthetics/dimension hence it is advised to check the product for plumbing. Company is not responsible for consequential expenses/losses.

2. If you or your technician is facing difficulty during the installation of any of our products, please contact the Simpolo Care number mentioned above for guidance.

Your warranty card is inside the product box—don't miss it!"

Matte Sanitaryware Care

How to clean matte finish sanitaryware?
A step-by-step guide to Clean Matte sanitaryware.

Cleaning the outside surface/Area

1. Apply a DISINFECTANT liquid and a dishwasher mix for cleaning: It is important to apply a "DISINFECTANT "or equivalent solution when cleaning.
2. Wipe the entire surface with a clean cotton cloth: To give your matte surface a nice smooth look, wipe the entire surface with a clean cotton cloth.
3. Wipe sanitaryware surface: Recommended to start from the top to the bottom. Wipe the top of the surface, followed by the bottom area.

Note: Use of DISINFECTANT and Dishwasher:

- The DISINFECTANT liquid disinfects the surface, while the dishwasher gives it a shiny look.
- Except in extreme cases, stay away from detergents as they leave white lines on your matte surface.

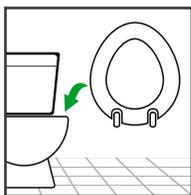

Cleaning the inside surface/ Area

4. Apply DISINFECTANT liquid and Dishwasher mix to the bowl: Using the same principle, scrub the bowl from the rim, followed by the bottom area. Ensure you scrub the underside of your rim where the bowl's water jets are located.

***Safety Tips :** you can wear a latex glove when washing the inside of sanitaryware.

5. Leave the washed bowl unflushed for about 10 minutes : Leave the bowl for about 10 minutes, then scrub with a sanitaryware brush.
6. Flush bowl after 10 minutes : Now you can flush the bowl and you're done.

SEAT COVER MAINTENANCE TIPS

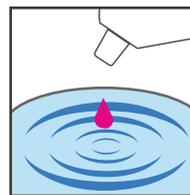

Install the seat cover only after completing all bathroom work.

Avoid direct sunlight for seat cover storage.

Don't use abrasive cleaners with acid, chlorine, or thinner.

Use mild detergent diluted with water for cleaning.

Lift seat cover when using strong cleaners in the closet bowl.

Anti-bacterial

6 REASONS TO CHOOSE SIMPOLO

Technology

Simpolo has brought the spirit of innovation to the bathroom – a recipe for success that has made it leading supplier of ceramic bathware. Now, Simpolo is set to use state-of-the-art technology to make everyday life more comfortable and convenient.

Well-being

Since time immemorial, modern bathroom culture has represented the epitome of cleanliness and well-being. Above all, every Simpolo bathroom provides not only convenience & functionality, but also a heaven for relaxation. It is for this reason that Simpolo brings together oriental bathroom culture with Western engineering.

Innovative Design

The design plans are sketched out in a way that they stay true to the modern day decor. They will blend into your spaces with a flair of familiarity. The bathware is fashioned in a manner that will acclimate into all kinds of interior decoration style environments. There will be no bargain on quality and look of the creation.

Comfort

Comfort will play an essential role in the bathrooms of tomorrow. That's because anyone who values first-class design attaches the same importance to other aspects of their bathroom. Simpolo has developed the perfect solutions to meet these existing requirements, bringing you the very best that modern bathroom culture has to offer.

Purity

The bathing ceremony has always been an element of modern culture. Cleanliness and hygiene are an integral part of everyday life in modern living, where spiritual and physical purity go hand-in-hand. One cannot exist without the other. This is also one of Simpolo's main principles.

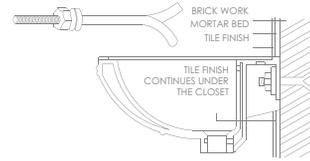

Bacteria-Free

The ground-breaking Silver Nano Technology is being put to use into all the bearings of Simpolo Bathware. The series is layered with distinct a Nano Ceramic glaze containing Silver Nano ions. This will prevent any kind of bacteria from thriving, making it absolutely clean and safe.

INSTALLATION INSTRUCTION

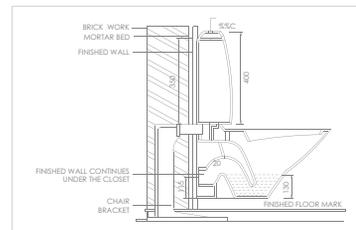

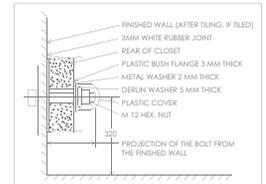

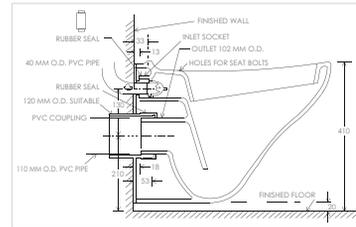

WALL HUNG BASIN

Fixing : the rag should be first grouted into the wall using cement / concrete. (as shown) as per the distance between slots provided in the wash basin. The bolts should be fixed perpendicular to the wall. Allow cement / concrete to set. Check if the rag bolts are firmly fixed. Fix the wash basin in the bolts using nuts & washer.

CONCEALED WALL HUNG

1. If the wall is going to be plastered for a thickness of 12mm and a tile thickness of 6-7mm, the projection of the bolts from the finished wall should be 66mm only. The bracket should be buried into the floor so that the height from the centre line of the bolt to the surface for the finished floor is 320mm.
2. If the thickness of plastering and tile is less than the dimensions mentioned above, the bolt that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.
3. The bracket should be buried into the floor so that the height from the centre line of the bolt to the surface fo the finished floor is 320mm.

WALL MOUNTED COUPLE CLOSET

COUNTER WASH BASIN

(A) Before You Begin

1. Due to typical nature of the installation, under counter basin should be installed by trained and experienced installers.
2. Inspect the waste and supply tubing if necessary.
3. Install the basin in such a way, that it's removal in future can be done freely and without damage.
4. Prior to installation unpack the new basin and inspect it for damage. Keep the product to its protective carton until it is ready to be installed.
5. Observe all local plumbing and building codes.

(B) Tools and Materials

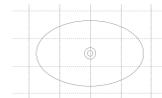

1. Sealant, Pencil, Measure Tape, Sharp knife or scissors, Keyhole or saber saw, Drill (1/2 dia, drill bit or larger) glasses, Haer, Rage or paper toweling.

NOTE: You may require diereent, more specialized tools to install this basin on counter top materials other than wood or wood components.

(C) Install the basin

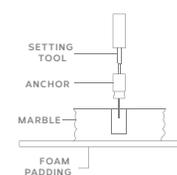

1. Check the desired lavatory location for clearance between the back splash, faucet, fixture and cabinet.
2. Cut out the template.
3. Carefully position and trace the template on the counter top as directed on the templates.
4. Mark the faucet hole centreline on the counter top.
5. Drill a 1/2" pilot hole on the inside of the cut line.
6. Cut out the counter top opening with a saber or keyhole saw.

NOTE: Install the basin in such a way that it's removal in future can be done freely and without damage.

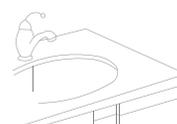

FOR WOOD COUNTER TOPS

1. Mark and per-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

FOR MARBLE COUNTER TOPS

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/16" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and haer to secure the anchors.

FOR ALL INSTALLATIONS

1. If the counter top has not been installed, install it as stated below.
2. Drill the faucet holes according to the faucet installation instruction.
3. Install the faucet to the counter top according to the manufacture's instruction.
4. Install the drain to the lavatory according to the manufacture's instruction.
